Part A. Shortleaf Pine Habitats (this will be put in workshop binders).

Briefly describe the Natural/Historical shortleaf pine habitats (including pine and oak habitats where shortleaf may be a minor and varying component) currently engaged in. Is a vegetation map showing the historical distribution shortleaf pine habitats or habitats that include shortleaf pine available?

Briefly describe the current shortleaf pine habitat status and trends. Is a vegetation map showing the current distribution shortleaf pine habitats or habitats that include shortleaf pine available?

Are there any written plans for shortleaf pine habitats and management? This includes State Forestry Agency State Action Plans, State Wildlife Actions Plans, TNC eco-regional plans. (Please provide a copy if available)

Part B. Threats to shortleaf pine habitats.

List the top threats to shortleaf pine habitats in your area.

An example might be – fire suppression or altered fire regime

Part C. Describe the most important barriers to shortleaf pine restoration

What are the most important barriers you have encountered to shortleaf pine habitat restoration?

An example might be – no markets for wood products resulting from restoration treatments

Part D. Describe Restoration Actions Taken To Date.

Describe the types and success of actions taken.

Part E. What strategies do you think would be most effective in getting to implementation of shortleaf pine habitat restoration?

An example might be – raising awareness among resource professional about the habitat and wildlife values associated with shortleaf pine habitat restoration

Part F.

Please describe the shortleaf pine restoration projects you are working on or have knowledge of.

Project Name:

Project Contact: Name, affiliation, address, email, phone

Partners:

Ecoregion:

State:

Project Extent: In acres

Project Description: Briefly describe in one or two paragraphs:

- general location,
- land ownership/administration,
- landscape context/character (e.g., current management emphases, social/economic issues relevant to fuels or fire restoration activities, etc.
- Send or Bring a MAP and GIS shapefiles
